Michael Thomas

The PACC Warrant Manual is available on CD only, for a yearly subscription price of \$100.00. The purchase also entitles you to the updates (usually 2 to 4 times) through the end of calendar year. The July 2009 updated manual is now available.

You may utilize the CD in your office as provided in the licensing agreement contained on the CD. You may print paper copies from the CD and/or download on all office computers, desk tops, etc. You **can not** provide copies for anyone who does not work in your office.

The CD contains the PACC Warrant Manual. The CD also contains a supplemental listing of the additions-changes. The supplement is offered in Adobe Reader. The CD also contains the Electronic Warrant Manual - which is a searchable program that operates much like the Help function in Windows. We have also reorganized the most common charges into groups, such as homicide, to make your searching easier.

Please make out the check to P.A.A.M. (Prosecuting Attorneys Association of Michigan). The CD will be mailed upon receipt. **We can not send a bill.** I will need to know to who's attention and agency, ie: Sheriff, Court, City Police, etc., address, phone number for contact person, to send the CD, and then the updates as they happen. Please contact me with any questions or concerns.

Thank you,

Mary Mitchell
